

stragure

Simplifying Business . Unlocking Value

Why Us ?

Because we listen.

- We take pride in being a client centric organization. From Business Process Analysis to preparing Use Cases to Application Development to Hardware Sizing to Application Deployment to Performance-Scalability-Reliability Analysis, Stragure is a one-stop shop for Application Development and supporting Services.
- We believe in quantifying value for our clients. We carry out financial analysis on behalf of our customers to arrive at potential savings and ROI analysis for any project undertaken by us.
- We listen to our customers. Stragure believes in collecting and evaluating customer feedback on a frequent and regular basis. It helps us re-align our project priorities from a micro perspective.

Our Development Methodology

Customer Speak

“Stragure has been able to respond to requests in a timely manner, and have not been afraid of exploring new technologies to build a unique proposition. We'd gladly recommend Stragure for industrial strength applications of high complexity.”

Kasturi Srinivas,
CEO Pepper Global Ltd.

“I cannot say enough about our positive experience with Stragure.

They understood our exact requirements and provided an unsurpassed level of commitment and support.”

Wadim Kaufmann,
CEO Kaufmann Group

“As someone that's starting up a venture, I have been very impressed by the level of commitment and support you have provided me, in addition to the core skills the Stragure team brings to the table. I look forward to a long association with you.”

Ram Ramakrishnan,
e-Commerce Entrepreneur
